COMPANY PROFILE

BKT, Balkrishna Industries Limited, is an international off-highway tire manufacturer headquartered in Mumbai, India. Since 1987, BKT has focused on specialty off-road tire

segments such as construction, agricultural, industrial, mining, lawn and garden, ATV, and forestry. BKT has invested in state-of-the-art technology and innovative product design to meet the most demanding needs of the user. BKT has over 3200 quality products and distributes to over 160 countries on five continents.

BKT is a family-owned company driven by ambitious innovation and a strong bond with their partners. They share the idea of a great team in which everyone pulls in the same direction. Quality and innovation are some of BKT's strength because of consistent and continuous investment into Research and Development as well as into tire technology, tire machinery and advanced tire manufacturing processes.

There are five state-of-the-art manufacturing plants in India and three business unit subsidiaries in the United States, Canada, and Europe. The advanced Research and Development Center in Bhuj studies product design and development, as well as sustainable materials. There is a test track and facility where all tires undergo 500 tests throughout the production cycle. BKT has even built their own Carbon Black plant and lab to produce quality raw materials to use in their tires.

Their passion for team and sports has led to sponsoring many sports organizations worldwide. Monster Jam, many European

soccer leagues, rugby, basketball, curling, and cricket are the main focuses of BKT's sponsorship. The goal is to support the customers not only through their business but their passions.

BKT heavily invests in CSR activities through the "We Care" Foundation. Their focus is on health-related initiatives and supplying food to the needy. They also help ensure education for under-privileged children. During the COVID pandemic, BKT provided food, medical equipment, masks, and even built E-ICU centers.

Visit BKT's website at www.bkt-tires.com to or contact them at 330-836-1090 or info@bkt-tires.com to learn more.

COMPANY PROFILE

Terra Sonic International: The Future of Sonic Drilling

Terra Sonic International is the only sonic drill rig manufacturer in the world that is committed exclusively to Sonic drilling technology—Sonic Rigs, Sonic Heads, and Terra Sonic Tooling. Terra Sonic represents more than three decades of Sonic innovation and more than 500 combined years of Sonic drilling experience. Terra Sonic was created by Sonic drillers for Sonic drillers. Every TSi rig, head and tooling component is crafted by Sonic drilling experts who know what it takes for drillers to succeed.

Each TSi Master Sonic Driller has more than 20 years of experience drilling in virtually every type of formation all over the world and a complete mastery of every facet of Sonic drilling. This unsurpassed expertise is reflected in every TSi Sonic Drill Rig and in all levels of TSi training and support. A commitment to continuous innovation, advancement and evolution of the industry keeps Terra Sonic one step ahead.

Sonic Drill Rigs offered by Terra Sonic include the truck-mounted 150T, the compact truck mounted 150CT, the crawler-mounted 150C, the compact crawler-mounted 150CC and 150CCE, and the articulating 150AC8. The TSi 150 Sonic Oscillator, the heart of every TSi Sonic Drill Rig, proffers the world's most productive and efficient use of Sonic power with an oscillator frequency of 0 to 150 Hz, 50,000 pounds (222.5kN) of force output and a maximum torque of 4,677-foot pounds (6,341 Nm). Terra Sonic acts as a Sonic Drilling Partner to its customers, offering ongoing guidance, support and training that help ensure success. A global footprint, large parts inventory and in-house machine shop mean maximized efficiency and minimized downtime.

COMPANY PROFILE

U.S. Tsubaki Power Transmission is a leading manufacturer and supplier of state-of-the-art power transmission and motion control products and a global leader in roller and conveyor chain production. U.S. Tsubaki is the largest global subsidiary of Japan's Tsubakimoto Chain Company, which was founded in 1917. Today, Tsubaki products are marketed in over 70 countries. U.S. Tsubaki's corporate headquarters and main distribution warehouse are just outside Chicago, in Wheeling, IL, and it runs full manufacturing facilities in Holyoke, MA, and Sandusky, OH and Milwaukee, WI. It also has strategically located service centers: in Los Angeles, CA, Atlanta, GA, Philadelphia, PA, and Anoka, MN.

The TSUBAKI name is synonymous with excellence in quality, dependability and customer service. An intense focus on research and development, along with constant modernization of its production facilities, are among the key components in Tsubaki's ability to successfully meet the ever-changing needs of the marketplace. Leveraging its vast, international network of corporate and industrial resources, Tsubaki offers customers the finest power transmission products in the world. Tsubaki's global presence affords the company with unprecedented opportunities to market advanced new products and technologies, and to utilize the intellectual assets of what it characterizes as "some of the brightest minds in business and engineering from around the world." This strength, combined with its continuous improvement of quality and processes, has Tsubaki poised for lasting growth now, and well into the future. Tsubaki offers some of the most versatile power transmission products on the market. Tsubaki roller chain innovations have yielded popular problem solvers such as self-lube Lambda® series chain, the new Titan™ Series chain for extended wear life, corrosion resistant Neptune® chain, fatigue resistant Super Chains, and rugged Energy Series™ oilfield chains. Attachment chains used for conveying a variety of products are also available in a range of configurations.

Tsubaki's Engineering Class chains are manufactured with high-performance base materials to ensure increased wear life. Heavy-duty chains designed specifically to meet the demanding needs of a vast array of industries. Specialty engineering class chains include, Iron Hawk™ Series shuttle car chains,

WORKHORSE™ elevator chains, and Sealed Joint chain options, all designed to prolong wear life under rigorous operating conditions

Tsubaki sprockets are built from top-grade, heat-treated carbon steel and precision manufactured to offer long wear life and meet the highest quality standards. Alloy and stainless steel sprockets are also available for extra corrosion resistance and food-grade applications. Tsubaki sprockets can also be fitted with the SMART TOOTH™ option which includes their patented wear indicator technology, which notifies the user when the sprockets need to be replaced.

Tsubaki's power transmission component products consist of belts, cam clutches, actuators, dampers, overload protection options and reducers. These Tsubaki products are focused on protecting your application and getting the most out of it. Specialized engineers can assist you by creating solutions for your specific application needs.
